

Call for papers, Doctoral Consortium MICAI'2010

The Mexican Society on Artificial Intelligence (SMIA) invites mexican students presently enrolled in doctorate programs either in Mexico or abroad to participate in the doctoral consortium at the 9th edition of the Mexican International Conference on Artificial Intelligence (MICAI 2010, [1]), to be held on November 8 to 12 in Pachuca, Hidalgo, México.

The consortium offers a limited number of students the opportunity of presenting their work advances and receive evaluation and feedback from notorious researchers (advisers) and fellow participating students. The main objective of this forum is to allow the students to benefit from evaluations and discussions related to their particular research projects. This forum will also allow the students to know more about the research community on artificial intelligence in Mexico and identify the different research areas in order to promote scientific collaboration in a new generation of researchers. Finally, the consortium will enable communication and knowledge interchange between the Mexican industry and the research community.

The invitation is open to all doctorate program students with an approved research topic in Computer Science and with enough time to obtain the degree in order to be able to benefit from feedback. Interested students must send by e-mail to either Doctoral Consortium chairs the following information in a single PDF file:

1. Abstract of the research project, written in English using Springer LNCS format ([2]) and a maximum extent of 3 pages. This document must precisely indicate the extents of the research and the hypothesis and/or research topic, the justification of its importance, a brief description of the research objectives and methodology and the preliminary results or conclusions obtained so far. Incorporation of the following sections in the written document is recommended:
 - Motivation
 - Previous works in the area
 - Hypothesis or research objectives
 - Methodology
 - State of the research
 - Preliminary results (or conclusions)
 - Bibliographical reference
2. The student's curriculum vitae with a maximum extent of 2 pages (list of publications included).

DOCTORAL CONSORTIUM CHAIRS:

Oscar Herrera Alcántara oha@correo.azc.uam.mx

Miguel González Mendoza mgonza@itesm.mx

A DOCTORAL CONSORTIUM PROGRAM COMMITTEE will evaluate the submitted documents, and will also participate as advisers during the doctoral consortium.

Selected students will be invited to a discussion session in which advisers will give a feedback about the actual state of the presented work in terms of content as well as methodology and will give suggestions and recommendations about the future direction and focus about them.

Other benefits:

- Abstracts of the accepted papers will appear in the CD of the memories MICAI workshops and Doctoral Consortium.
- Selected students will obtain free inscription to the Congress and CD of the memories MICAI workshops.

Important Dates: (EXTENDED)

- Deadline for paper submission: [August 15, 2010](#).
- Notification of acceptance/rejection: [August 29, 2010](#).
- Event: November 8, 2010.
